ABOUT ME

Front-end developer with 3+ years of experience building responsive and accessible web applications using React.js, JavaScript, NextJS and modern UI tools. Passionate about crafting intuitive user experiences and collaborating on impactful digital products. At Uranium Software, I contributed to major projects like Zain Sudan (content management systems) and Sudatel (admin side of a mobile HR attendance app). Previously, I helped bring professional-level football data to fans via Eleven Stats at Stackzy. I thrive in Agile teams, turning complex UI/UX challenges into elegant, high-performance solutions.

TECHNICAL SKILLS

- HTML5
- CSS3
- JavaScript (ES6)
- TypeScript
- ReactJS
- Redux - Redux Toolkit Query
- NextJS
- MUI, Bootstrap
- GulpJs
- Sass
- Git, GitHub
- SharePoint

SOFT SKILLS

- Strong Technical Expertise
- Meaningful Workplace Impact
- Dedication to Lifelong Learning
- Problem-Solving
- Extensive Project Involvement
- Collaboration and Teamwork

CERTIFICATES

- CS Fundamentals Programming at Route Academy   Jan 2023
- The Complete React Developer Course   Nov 2021
- The Complete JavaScript Course 2020   Oct 2020
- Front-End Web Development with React   Jun 2020

EDUCATION

- SEP 2018 — JUNE 2021   Al-Azhar University
  Faculty of Arabic Language

Self-taught in front-end development via platforms like Coursera & Udemy.

WORK EXPERIENCE

- **Front-End Web Developer at Uranium**   Feb 2023 - Present

• Developed responsive, high-performance web apps using React.js, Redux, TypeScript, and MUI.

Zain Sudan Project: a scalable content management system (CMS) allowing seamless site updates by administrators

Sudatel Project: An admin dashboard for a mobile HR attendance app used by HR teams to manage global staff attendance efficiently

DMS, Silo, Violation Management: Delivered dynamic interfaces for key internal systems, optimizing user interactions and improving overall system efficiency.

• Developed scalable enterprise applications using React.js, focusing on performance and maintainability.

• Leveraged React's component-based architecture to build reusable UI elements and ensure code modularity.

• Ensured type safety and improved code maintainability with TypeScript.

• Used Redux and Context API for state management across multiple projects.

• Implemented a modern, responsive UI design using MUI components.

• Collaborated in Agile teams, optimized code for speed, and ensured accessibility and cross-browser compatibility.

- **Front-End Web Developer at Stackzy**   Mar 2022 - Jan 2023

• Built intuitive, responsive front-end components for Eleven Stats, a football analytics platform, facilitating the democratization of football data for users.

• Developed dynamic, server-side-rendered pages using Next.js to enhance performance and SEO.

• Provided technical solutions for complex business requirements, contributing to the democratization of data in football analytics.
